HEAT PUMPS FOR PRIVATE AND PUBLIC SWIMMING POOLS

DANTHERMGROUP

## DANTHERM HEAT PUMPS

# HEATING FOR OUTDOOR SWIMMING POOLS

Dantherm's new range of HPP-i inverter heat pumps are specifically designed for heating small and medium sized outdoor swimming pools and spas.

**HPP-i**

The low energy consumption coupled with high heat production makes the HPP-i heat pump an environmentally friendly way to heat your swimming pool.

Unlike alternative ways of heating pools, the HPP-i heat pump requires no fuel storage tank or high capacity electrical supply. It produces no smell, fumes or CO<sub>2</sub> gases.

HPP-i heat pumps are designed to work all year round when temperatures are above -5°C. Thus, the pool season can be extended for several months.

### Rapid installation, flexible operation

Dantherm HPP-i heat pumps are easy to install and fully self-contained units. When it comes to operation, the HPP units offer a quiet, high efficient, reliable, and safe performance.

### Features

- Inverter heat pump
- Average COP 9.7 = 2 x more efficient than on/off heat pumps
- Eco-friendly refrigerant R32 = 675 GWP, (Global Warming Potential)
- 9-11 dB(A) sound reduction compared to an equivalent on/off heat pump, with 'Whisper Mode'
- Multifunction operation functions can be set to heating, heat/cool and cooling
- Soft start-up
- Aluminium alloy
- Built-in Wi-Fi module

### Options

- Remote LED control kit
- Winter protection cover

### Controls

The HPP heat pump has an integrated controller with a touchscreen user interface.

The basic functions are:

- Heat pump ON/OFF
- 24-hour time clock
- Timer ON/OFF
- Parameter adjustment

### Temperature control chart

### New refrigerant gas

With the introduction F-Gas regulations in Europe, our new heat pump will use the low Global Warming Potential (GWP) refrigerant R32.

This refrigerant:

- Has a low GWP (675)
- Zero ozone depleting potential (ODP)
- Is F-Gas phase down compliant
- Requires less refrigerant volume per kW
- Is easier to reuse and recycle

### Applications

- Outdoor pools
- Private pools
- Spa pools
- Above ground pools
- Wellness centres
- Therapy pools

### Heating method efficiency chart

Great value, and environmentally conscious heating option, with energy consumption half that of a traditional on/off heat pump, and 1/10 of that for gas or electric pool heating.

Specifications	Units	HPP-i 8	HPP-i 12	HPP-i 16
Air temperature range	°C	-5-43	-5-43	-5-43
